

TUESDAY SPEAKERS CORNER

“MAKING SENSE OF THE ODDS”

PRESENTED BY

NICK & JUDITH GARTAGANIS

TIPS ON USING THE ODDS TO MAKE BETTER BRIDGE DECISIONS

Why is it that, when faced with a choice of plays to bring home a contract, the expert often “guesses right”. Is it simply luck? The truth is, knowing just a little about how to calculate the best chance can help you guess right too. Join Judith and Nicholas for an introduction to distribution percentages, the principle of vacant spaces, restricted choice and more (they'll let you in on some expert secrets too).
