

CALGARY DUPLICATE BRIDGE ASSOCIATION

APRIL 2005

President's Message

This issue of the Kibitzer comes on the heels of our hosting a very successful regional to raise funds for the Canadian Bridge Federation. The funds raised were about \$17,000 and in addition, the Unit cleared more than we do in most sectionals, so the loss of our March sectional won't be felt in the financials. Thank you to Delores Hedley and Frank Ayer who co-chaired the event and to everyone who volunteered to help. Thanks also to everyone who came out to play in less than ideal weather.

You will see a new Bidding Box policy on page 6. Thanks to Steve Lawrence who was basically a committee of one on this matter.

Last year at the AGM, your Unit Board was asked to assess the feasibility of purchasing a Duplimate machine similar to the one owned by the Edmonton bridge community. We elected to offer our members the chance to try out the pre-dealt boards at one session at our Banff tournament and at four sessions at our January sectional. We did this by paying a fairly minimal fee to Edmonton and prevailing upon our director to transport them. The general response was quite favourable. However, the purchase price for a new machine and accessories would currently cost more than \$8,000, and your board has decided against purchasing for the foreseeable future.

One task we took on this year was to review our bylaws to ensure they are consistent with current practice. We've posted our proposed amendments on the website. They mainly consist of housekeeping: providing for notices by e-mail, typos, appointment of officers by the Board, and changing the fiscal year-end to match our financials.

We were also asked last year to inquire into the possibility of Calgary hosting a NABC. Martin MacDonald and several others have gathered a lot of information and a few contacts in this regard. The bottom line for now is that the ACBL has booked summer NABCs seven years out and is not considering later ones until at least next year. It would seem though, that looking at the hosting site requirements, the recent success we've had hosting special, albeit smaller events, the considerable resource represented by the Edmonton bridge community, and Calgary's ability in general to host large scale events, a summer NABC in Calgary early next decade would likely exceed the expectations of the ACBL.

I look forward to seeing you at the annual general meeting on May 7th.

Ian Boyd Wins 2004 Richmond Trophy

Ian Boyd, a mainstay of Canada's junior teams, is the 27-year old winner of the 2004 Richmond Trophy. The

trophy is awarded annually to the Canadian who wins the most Masterpoints for the year. Calgary is proud to count Ian as one of its citizens.

Ian won 1492 points in 2004 – good enough for 10th in the ACBL-wide race, 1st among Junior players and 1st among Gold Life Masters.

Bridge became a passion for Ian at an early age. His dad, Hamish, finally agreed to teach him how to play when he was 13 and, from then on, he was hooked! Ian estimates that during 2004, including club games, he played nearly 300 sessions of bridge with between 60 to 80 different partners.

Chairpersons, Delores Hedley and Frank Ayer, would like to thank the many volunteers who assisted with the set-up and take-down; driving guests to and from the various hotels; partnering with out-of-town guests; selling 50/50 tickets, and manning the partnership desk. As always, the Calgary membership was there to help. Special thanks to the following:

Threading The Needle

by Judith and Nicholas Gartaganis

Arriving at the second-best contract is an experience that all of us have shared. With luck, the second-best contract will still provide the scope for declarer to avoid losing IMPs or Matchpoints.

In the Zone V Canadian National Team Championship held April 2-3 in Red Deer, Gordon Campbell found himself in a tricky contract that required a bit of luck and correct analysis of the end position.

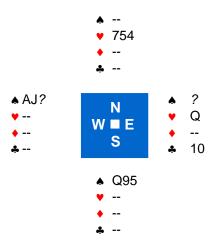

Dealer: West Vulnerable: Both **8** AK754 AKQ8 QJ7 ♠ AKJ??? **↑** ?? N **y** J3 Q98 W ■ E 105 9762 S ♣ A98 10432 ♠ Q952 1062 J43 ♣ K65 Piotr Gordon North South West <u>East</u> Double 1 Pass 1NT 2 🛦 Double Pass 2NT 3NT Pass Pass Pass

At our table the opponents bid to 4 which, with hearts splitting 3-2, cannot be defeated. Gordon found himself in 3NT on the lead of the &K and the VJ shift. Since he was looking at the V10 it seemed likely that West had heart shortness.

Pass

Gordon won trick two with the $\checkmark A$ and advanced the $\clubsuit Q$, won by West. West must take his $\clubsuit A$ on the first or second club trick. Otherwise he will find himself embarrassingly endplayed if declarer cashes all his red suit winners before playing a third round of clubs. West exited with the $\checkmark 3$.

As both an expert bridge player and a chess champion, Gordon has a remarkable knack for visualizing end positions. He won West's heart continuation with the *K and cashed all his winners, revealing West's distribution to be 6-2-2-3. With eight tricks in, here was the 3-card end position:

At this point Gordon had to "thread the needle" by guessing West's mystery spade card: the \$10 (West having started with \$AKJ10) or something smaller (West's original holding being \$AKJx). After some thought he exited with the \$9, hoping LHO was down to \$AJ10 and would be forced to let him score his \$Q at trick thirteen.

Oops! East won the \$10 and cashed winners to defeat the contract. The end position was an interesting one. Gordon missed the slight inference that, if West had started with AKJ10, he may well have cleared spades while still holding the AA as a possible entry. In the actual ending, Gordon needed to exit with the AA to bring the contract home. He would score his AA at trick thirteen!

Never mind that 3NT is routinely scuttled on a low spade lead at trick one. If this story had a moral, it would be that arriving at the best contract usually conserves energy and is less exhausting for the brain. Of course, had hearts divided 4-1, then 4 verwould have had no chance. 3NT would have been the best contract and not guessing the end position would have been an opportunity lost.

Rules and Lessons Learned

by Terri Bedard

Experts say that you will learn something new each time you play bridge. Sometimes you learn quite a bit in just one hand. (Names have been left out to protect my innocent partner).

On Saturday evening at the Calgary January sectional, partner and I, after having an above average afternoon and a very good evening session, moved for the last round with the expectation of placing in the overalls.

After two average boards I picked up:

♠ Q10X ♥ AQJ ♦ JXXX ♣ KXX

and in the middle of some chit-chat with our friends who were sitting opposite us, I bid 1♦.

LHO pulled out his pass card and RHO called "DIRECTOR" at which point the pass card was immediately placed back in the bidding box. It was then I noticed I had bid out of turn (which never happens ©) and it was RHO's first bid. Steve Bates came over and I pleasantly told him we didn't need him because although I bid out of turn LHO passed so on we should go.

RULE 1: Steve informed me that since the pass card had not hit the table then LHO had not yet bid.

LESSON 1: So as to not cause yourself embarrassment, let the director make the rulings.

Steve then told LHO that he had the first opportunity to accept my bid out of turn which LHO replied, "I don't think I will since partner's hand went up like a shot to call you over". So the bidding reverted to RHO. He opened 1 •!!

RULE 2: If I bid anything other than 1, including pass or double, partner is barred for the duration of the auction.

RULE 3: I cannot bid 2 • as that is a conventional call; therefore, if I decide to bid diamonds at the 3 level or higher, partner is only barred for one round.

LESSON 2: Evaluate your hand, count your points, and do not bid out of turn.

At the time I was pretty sure that pass was the right call and did so when LHO bid 1NT (partner barred) and the auction continued two passes to me. I had no option but to pass.

RULE 4: Declarer may demand or forbid a diamond lead.

LHO demanded a diamond lead and dummy came down with an 8 count. 8 Points!! RHO turned and smiled at me. It turns out that the diamond lead was the worst lead partner could find and I defended horribly to let declarer make 1NT for a cold bottom on the last board. Had I bid 1NT over the 1. (hoping partner had a little something for me) we would have been +150 for an above average and we would have placed 3rd overall instead of 7th.

LESSON 3: Play each hand as if it is your first and have fun at the bridge table, but be wary of sneaky opponents.

What happened, partner?

UNIT 390 BIDDING BOX POLICY

The use of bidding boxes, a relatively recent innovation in bridge, has some obvious advantages. Generally, their use results in a quieter game with fewer misunderstood calls and reviews of the bidding. Another, less obvious, advantage is that members who are hearing impaired can enjoy a game that is primarily visual.

However, this last point highlights a problem in the use of bidding boxes. Some individuals have impairments that make the use of bidding boxes difficult or impossible. It can be difficult to reconcile the needs of these two groups when they play against each other. This policy is designed to take this into account and set appropriate procedures to achieve this.

The following are impairments that we have identified that impact the use of bidding boxes.

Visual impairment - For such an individual to participate, verbal bidding is required.

Hearing Impairment - For such an individual to participate, the use of bidding boxes is required.

Physical Impairment - An individual for whom using a bidding box is impossible or who finds it difficult or painful to do so.

While not an actual impairment, there is also a problem for many players in the mixed use of verbal bidding and bidding boxes during an auction. Many find this mixing of verbal and visual bidding to be a distracting experience that reduces their enjoyment of the game and makes it difficult for them to play at their best. This is especially true for newer players.

We are introducing the following policies and procedures at Unit 390 events to ensure that, to the best extent possible, all individuals having any difficulty with respect to bidding boxes can have their rights protected as fully as is possible.

Unit Policy

Any player has the option to bid verbally if, in their opinion, physical limitations make the use of bidding boxes difficult, uncomfortable or impossible. We will not question the authenticity of anyone's impairment and no one will be asked to substantiate a disability.

- At tables where bidding boxes are not being employed, the needs of those individuals with a hearing impairment will take precedence. The pair not using bidding boxes, must, for that round, use them and employ the method suggested under Procedures point 2(b).
- At tables where bidding boxes are being employed, the needs of those individuals with a visual impairment will take precedence. The pair using bidding boxes, must, for that round, bid verbally.
- 4. Procedures listed below will apply for all situations where the use of bidding boxes varies from the norm.

Procedures

- When a person with any impairment that either requires
 the use of bidding boxes or prevents their use, attends a
 Unit 390 event, they should inform the Head Director of
 this, prior to the start of the game. This will enable the
 director to implement a plan to assist them and ensure
 the smooth running of the game.
- 2. Where one player at a table is unable to use bidding boxes, there are two options available:
 - a) All bids at that table, by all players, should be made verbally and bidding boxes should be removed (prior to the start of the game) to a location where they will not to be easily available for inadvertent use, or
 - b) The player's partner or an assistant can place cards from a bidding box on the table in response to a verbal call by the player unable to use the bidding boxes.
- Intermittent or inconsistent use of bidding boxes within a session is not permitted, unless this is required by the director to assist players with a visual or hearing impairment.

Best Practice

All players are reminded that it is in the best interest of all bridge participants to be generous and show good will in adhering to these policies and procedures. Where verbal bidding is used, it should be made in a clear and consistent manner, with sufficient volume to be easily heard by all at the table. No one should question the sincerity of anyone's impairment or seek to undermine the spirit of this initiative.

You hold:

★---- ▼ A J 4 2 **♦** J 10 7 6 5 3 **♣** A Q 6

Partner deals and opens 5♠!

The expert treatment for this opening bid is "Partner, I have a two-loser hand. Please bid a small slam holding one of the top two trump honours, or the grand slam holding both". Your call?

Did you bid $7 \ ?$ Are you nuts, you must be thinking? Well, what has partner promised? We know s/he has long spades to the QJ and s/he said s/he doesn't have a loser in hearts nor clubs. Therefore, s/he must have voids in both round suits and good diamonds, say AKQ(x).

So partner's hand will be something like:

♠QJ109876432 V---- ◆ AKQ ♣ ----

Isn't 7 ♦ the logical bid then?

There is no real danger that partner has anything less in diamonds. With an extra spade and just $\bullet A$ K, partner would be taking quite a risk bidding only 5 ...

There is one hurdle though...the person across the table from you must <u>not</u> correct to seven of the "obvious" trump suit. If s/he does, it will be a great post-mortem!
